

# FILIP KULISEV

## MASTER QEP, FBIPP

Over the past decade, traveler and photographer Filip Kulisev, QEP, FBIPP, has developed into one of the world's best chroniclers of natural scenery. His pictures have been seen at more than 200 solo exhibitions in Slovakia and abroad, including Sydney, Auckland, Atlanta, Washington, Cleveland, Sarasota, Las Vegas, Vancouver, Monaco, Rome, Moscow, Malta, Paris, Ottawa, Honolulu, the European Parliament in Brussels, the United Nations in both New York City and Geneva, EXPO 2020 in Dubai, EXPO 2025 in Osaka, and the North Pole.

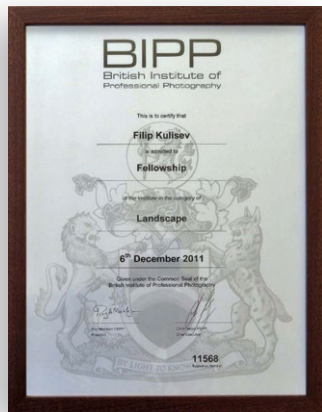

Filip has received several prestigious international awards for his work. They include the highest European award for professional photographers, the Master QEP (Qualified European Professional Photographer), and a certified Fellowship (FBIPP) from the British Institute of Professional Photographers (BIPP), its highest honor. Awarded European Professional Photographer of the Year for 2012 in the category of Nature, he won again in 2020, this time in the Drone category, along with the FEP European Drone Golden Camera Award.

Filip's works have been collected by prominent personalities around the world, including the late Pope Francis, King Charles III of Great Britain, Prince Albert II of Monaco, UN Secretary General António Guterres, and the heads of state of Slovakia, Russia, Kyrgyzstan, Uganda, French Polynesia, Kiribati, Palau, and Indonesia. Academy Award-winning artists such as composer Hans Zimmer and director Luc Jacquet possess Filip's work, alongside actors such as Will Smith, Pierce Brosnan, and Robert Redford.

Filip founded the Association of Professional Photographers of the Slovak Republic (APFSR). He is the author of thirteen books that illustrate the charm of nature on our planet and bring to light the features that make it so different. Through his work, Filip endeavors to promote the protection of biodiversity and our planet's natural wealth for future generations.

*"Through the beauty and purity of his images, Filip Kulisev gives substance to those treasures we all too often ignore and that may disappear tomorrow as a result of our reprehensible inaction. I am certain it makes significant contribution to alert all people of goodwill to the state of our Earth."*
